## **About US Vegan Climate ETF**

The US Vegan Climate ETF (VEGN) is an exchange-traded fund that is based on the US Vegan Climate index. The fund seeks to track a principles-based index of U.S. equities weighted by market-cap. VEGN was launched on Sep 9, 2019 and is managed by Beyond.

**Investments involve risk including the possible loss of principal. To the extent the Fund invests more heavily in particular sectors of the economy, its performance will be especially sensitive to developments that significantly affect those sectors. Investments in mid-cap securities involve additional risk such as limited liquidity and greater volatility. The index methodology may cause the Fund to underperform the broader equity market or other funds which do not utilize such criteria. The Fund's return may not match or achieve a high degree of correlation with the return of the underlying Index. To the extent the Fund utilizes a representative sampling approach, it may experience tracking error to a greater extent than if the Fund had sought to replicate the Index.**
